A: No. Once you set up one account you will be able to see information on all of your children.

Procedures For Obtaining Student Records

Parents may review their child's education records upon reasonable notice to the Principal (or the Principal's designee) of the School in which the child is enrolled. If the student is no longer enrolled in Walton County Schools, the parent or eligible student should contact the Director of Student Services. Copies of a student's records may be obtained at a cost of \$.10 per page.

A parent may also authorize disclosure of their child's education records to a third person or entity. To be effective, the authorization (1) must be in writing, (2) must designate the records which are to be released, and (3) must be dated and signed.

School Nutrition Program

We welcome and encourage all of our students to eat healthy, safe, nutritious meals provided by the lunchroom. School meals are planned according to current USDA meal planning guidelines. Students are required to select at least one fruit or vegetable option with their meal. School Nutrition and school nurses will communicate regarding food allergies. *Milk substitutions may not be made without a Special Dietary Restriction form on file*; other menu substitutions are made on a case-by-case basis. Contact the SNP office to discuss meal accommodations.

All schools provide breakfast daily. We encourage students to start the school day with a filling and healthy school breakfast. Students who eat breakfast should arrive early enough to eat so they are not tardy to class. School specific procedures will be shared in the first few days of school.

Extra items which meet federal guidelines may be sold for an additional charge. Elementary and middle school students must purchase a lunch or show that a lunch was brought from home prior to purchasing extra items. Elementary students may be required to pay for these items separately from their lunch account. Students with negative account balances may not purchase and may have privileges restricted.

Meal Prices and Payments

Reduced price breakfast will cost \$0.30 and reduced price lunch will cost \$0.40. Student paid and adult meal prices will be published on the WCSD web page prior to the beginning of the school year.

Students use their unique (InfiniteCampus) student number for lunchroom transactions. Students may eat more than one meal, but only the first meal per serving period is priced as a student meal (regardless of student status). Additional meals are charged at the adult price. Students may **NOT** share their student number with friends or siblings.

Each student has a unique account to which payments are credited. Money left in accounts at the end of the year will remain for the next school year unless a refund request is completed. Families of graduating seniors may donate remaining funds to angel accounts, specific accounts, or may request a refund.

Parents are encouraged to prepay for meals. Parents may create an account on MyPaymentsPlus.com where they can monitor purchases and account balances for free. Deposits may be made online via credit card, debit card, or e-check OR by telephone (call 866-764-0642). Online or telephone deposits incur a small convenience fee (noted before transaction completion). The mypaymentsplus app is available for iPhone or Android devices.

Parents may also send meal payments to the school. When sending a check, please include the child's name, ID number, teacher name, and telephone number. If sending cash please enclose your payment in an envelope with the child's name, ID number, and teacher name.

We love for family members and visitors to join us in the lunchroom. Visitors may select any of the menu items offered at the school. We strongly discourage parents from bringing fast food meals.

Charge Policy

In order to maintain financial stability, students have limits set according to school level regarding how much they can charge. These limits are explained in terms of "lunch equivalents". To determine the dollar amount your student is allowed to charge, multiply your student's lunch meal price times the number of lunch equivalents they may charge.

The charge limit may be reached by charging a combination of breakfast, lunch, and extras.

Elementary students may charge up to the equivalent of 4 (four) lunch equivalents.

Middle school students up to the equivalent of 2 (two) lunch equivalents.

High school students up to the equivalent of 1 (one) lunch equivalent.

Once a student reaches his/her charge limit, they will be offered an alternate meal (for breakfast or lunch). Alternate meals will be offered until the student's account has been brought up to date. Parents may call the cafeteria at any time to check a student's balance or request an account history or are encouraged to utilize MyPaymentsPlus.

Free or Reduced Price Meal Applications

Free or reduced price meal applications are distributed at the beginning of the year and are available at any time during the year by contacting an SNP office, downloading from the SNP webpage, or completing an online application (via a link on the SNP webpage). We are unable to accept scanned or faxed applications. **A new form is required each year** unless you have been notified by the School Nutrition office. Applications are kept in a secure location and eligibility information is confidential. Applications are subject to a verification process. **Families are responsible for all charges incurred prior to the approval of the application.** Student meal status benefits apply at both lunch and breakfast. Extras (including extra milk), partial meals, and adult meals are not affected by meal benefits and are charged at a la carte prices.

Contact the School Nutrition office (770-266-4431) to check on the status of an application.

Refunds and Transfers

Parents of students who leave the Walton County School system for any reason should request a refund of any money that remains in the student meal account. Money may also be transferred to another student account within the school district. Refunds are not available from school cafeterias.

For a refund, we prefer you download a refund request form from our website; however, requests are also accepted via email. Submit the form to the School Nutrition central office via mail (ATTN: School Nutrition, 1820 Hwy 11, Monroe, GA 30656) or fax (770-266-4437). Please allow up to 30 days for a refund check to be mailed, cash refunds are not given. Contact the School Nutrition Bookkeeper at 770-266-4432 regarding refunds or transfers.

NSF Checks

Checks returned for insufficient funds are sent to Envision Payment Systems (1-877-290-5460). Please contact Envision directly. Schools do not have access to Envision records.

Credit Card Disputes

Since deposits made to student accounts require knowledge of the student's unique identification number, purchases made with funds which are later disputed will remain the responsibility of the parent or guardian of the student.

Non-Discrimination Statement

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, sex, disability, age, or reprisal or retaliation for prior civil rights activity in any program or activity conducted or funded by USDA.

Important Information on Student Attendance

One of the most important ways you can help your child succeed in school is to make sure he or she attends school regularly and is on time every day. Please contact the school and let us know if there are any problems that prevent your child from coming to school regularly. State and local laws require that Walton County School District make you aware of the requirements for school attendance and the consequences for excessive absences.

Georgia Law and School Policy State These Requirements:

- Students between the ages of 6 and 16 must be enrolled in a public or private school or in a home study program.
- Students and their parents/guardians are responsible for ensuring that students attend school regularly and are on time.
- Parents/guardians must let the school know within three (3) days (in writing) the reason for the absence.
- Any unauthorized absence from school will constitute an act of truancy. Students with 5 or more unexcused absences and all cases of students with 10 or more total absences will be submitted to the School Attendance Officer for further options.

Risks and Penalties Associated with Excessive School Absences:

Students with excessive absences are at risk in many ways. Students risk falling behind in their schoolwork, losing course credit, and missing valuable opportunities to learn social and emotional skills that will help them succeed in life. In addition, students with excessive absences may be referred to the School Attendance Team, the School Social Worker or to the Juvenile Court.

Parents/guardians of students who violate the Georgia Compulsory School Attendance risk being fined (\$25 - \$100), jailed for up to 30 days, and/or ordered to perform community service. For legal reference, see O.C.G.A. 20-2-690.1.

Families and Schools Need to Work Together for School Success:

Since regular school attendance is so important to school success, and since the penalties for absences are so serious, it is vital that families and school work together to promote regular school attendance. Parents/guardians are encouraged to contact a teacher or school administrator regarding any problem that may interfere with a student's school attendance. If you have questions about school attendance, please contact your child's school.

Special Education Department

The special education department collaborates as an integral component of the curriculum department of Walton County School District to assure that all students have access to appropriate services, supports, and resources to learn. That same collaboration is evidenced in each school as students with disabilities are educated to the greatest extent possible in general education environments with their non-disabled peers. You will find many resources on our website referencing activities, training opportunities, and support groups!

Your Rights as Parents Regarding Special Education

The Individuals with Disabilities Education Act (IDEA), the Federal law concerning the education of students with disabilities, requires schools to provide parents of a child with a disability with a notice containing a full explanation of the procedural safeguards available under the IDEA and U.S. Department of Education regulations. A copy of this notice must be given to parents only one time a school year, except that a copy must be given to the parents: (1) upon initial referral or parent request for evaluation; (2) upon receipt of the first State complaint under 34 CFR §§300.151 through 300.153 and upon receipt of the first due process complaint under §300.507 in a school year; (3) when a decision is made to take a disciplinary action that constitutes a change of placement; and (4) upon parent request. [34 CFR §300.504(a)]

Parents have the right to be notified about the Georgia Special Needs Scholarship Program (GSNS). If a student meets the eligibility criteria for the GSNS Program; a parent has the right to request a transfer from a student's current public school to another public school within their district of residence; or another public school district outside their district of residence; or one of the three state schools for the blind or deaf; or a private school authorized to participate in the GSNS Program. Refer to the information on the Georgia Department of Education website: www.doe.k12.ga.us/External-Affairs-and-Policy/Policy/Pages/Special-Needs-Scholarship-Program.aspx for more details about the GSNS Program.

Parents have the right to be notified of low cost or free legal services. This procedural safeguards notice is available at your child's school, on our system website, or by calling the Special Education Department at 770-266-4503. For additional information regarding Special Education you may contact the Special Education Department at 770.266.4501.

Gifted Education Program

Walton County School District endorses the philosophy that education is a means by which each individual has the opportunity to reach his or her fullest potential. We believe that all students have a right to educational experiences that challenge the level of their individual development, whether it is below, at, or beyond the level of their age peers. Special programs for gifted students are one outgrowth of this commitment.

Students in grades K-12 who demonstrate a high degree of intellectual, academic, and/or creative abilities may be nominated for evaluation to determine eligibility to participate in the Program for Gifted Students. Referrals for consideration may be made by teachers, parents or guardians, counselors, administrators, peers, self, and other individuals with knowledge of the student's abilities. The State Board of Education determines eligibility criteria for placement in this program. For further information about Walton County's Gifted Education Program, contact the Gifted Program teacher at your child's school or Walton County School District, 200 Double Springs Church Rd., Monroe, GA 30656.

Gender Equity-Nondiscrimination Notice

State law prohibits discrimination based on gender in athletic programs of local school systems (Equity in Sports Act, O.C.G.A. 20-2-315). Students are hereby notified that Walton County Schools does not discriminate on the basis of gender in its athletic programs. The sports equity coordinator for this school system is: Chief Human Resources Office, 200 Double Springs Church Road, Monroe, GA 30656, 770-266-4410. Inquiries or complaints concerning sports equity in this school system may be submitted to the sports equity coordinator.

GA's Tiered System of Supports for Students

Walton County School District in alliance with the Georgia Department of Education provides a preventive framework to improve performance outcomes of all learners. This multi-level prevention system is a framework designed to provide support matched to student needs to maximize student achievement and reduce behavior problems. The Tiered System of Supports for Students includes schoolwide implementation that focuses on the "what and how of instruction" and the provision of services and supports to students that meet their unique, whole child needs.

Our multi-level prevention system, referred to as Multi-Tiered system of Support (MTSS), includes three levels of intensity or prevention and how student's respond to the supports provided. Response to intervention (RTI) teams are a part of the general education model that promotes early identification of students who may be in need of additional academic and behavioral support. MTSS/RTI provides a flexible problem-solving model in which schools provide high-quality instruction (Level 1) and interventions (Levels 2 and 3) to answer the questions: "How do we know when students are learning?" and "What do we do when students do not learn?" RTI teams focus on providing timely assistance to students and matching the needs of the learner with the appropriate intervention to close barriers to learning in the classroom. Research-based interventions are implemented and frequently monitored to assess student's response and progress. Federal Laws emphasize the importance of providing high quality, scientifically based instruction and interventions for all students to meet grade level standards. Students receive instruction and interventions based on their needs and may move between tiers as data supports.

All students are included in MTSS/RTI problem solving process and will receive a strong and rigorous standards-based learning environment, and when needed, remediation, interventions and/or enrichment supports.

Essential Elements of MTSS/RTI

- Universal screenings of academics and behavior
- Differentiation and use of scientific, research-based instruction, interventions and strategies
- Multiple levels of interventions matched to student needs
- Monitoring student progress
- Data based decision making to meet student needs
- Parent involvement

Notice to Parents Regarding Section 504 Services

Section 504 of the Americans with Disabilities Act prohibits discrimination on the basis of disability in programs and activities that receive Federal financial assistance from the U.S. Department of Education. Section 504 and IDEA have different criteria for determining who is protected under the law. Specifically, the meaning of "disability" in the IDEA is different than the meaning of "disability" in Section 504/Title II. To be protected under Section 504, a child must be a disabled person, which means having a mental or physical impairment which substantially limits one or more major life activities, having a record of such impairment; or being regarded as having such impairment and inhibit the student's access to a "free appropriate public education" (FAPE). Appropriate educational services are designed to meet the student's individual needs as adequately as the needs of students without disabilities are met.

To initiate consideration for Section 504, contact the 504 administrator at your child's school who will then provide you with a meeting letter explaining the evaluation process and a copy of the 504 parent rights. An informal evaluation will be conducted with input from the parent and any documentation to assist the school with making a final decision can also be shared by parents with the team. If eligible for a 504, an Accommodations Plan will be developed. Concerns that cannot be addressed through the 504 Accommodations Plan may be addressed more appropriately through the student's RTI plan or if needed consideration for a special education referral.

For any further information regarding Section 504, you may contact Dr. Donna Major, District Coordinator in the Department of Curriculum and Instruction at (770) 266-4489 or donna.major@walton.k12.ga.us

Notice to Parents Regarding Hospital/Homebound (HHB) Services

Walton County School District provides continuous educational services for students who are unable to attend school due to a diagnosed medical or psychiatric condition for a minimum of ten consecutive school days. Due to block scheduling, high school students are only required to miss 5 consecutive days to qualify. Students may also receive HHB services for intermittent periods of time still totaling at least 10 school days. Students served intermittently usually must miss a minimum of three consecutive days per episode, or 2 days for high school students. These services may be provided in the hospital or at the child's home or other agreed upon location.

To initiate Hospital/Homebound (HHB) services, obtain a *Hospital/Homebound (HHB) Services Request Form* and *HHB Medical Referral Form* from the HHB contact at your child's school. Complete the services request form and have the medical form completed by the licensed physician or licensed psychiatrist who is treating your child for the diagnosed condition. Give both completed forms to the HHB contact at your child's school.

A conference to develop an Educational Service Plan (ESP) for your child will be convened within five school days of receipt of the completed application. The purpose of the conference is to address the impact that the physical and/or psychological condition may have on your child's educational performance. The school team or Individualized Education program (IEP) team will determine the exact amount of instructional time based on the ESP, which takes into consideration the cognitive ability and medical condition of your child. To comply with the Georgia State Board of Education Rule 160-4-2-.31 Hospital/Homebound (HHB) Services, a minimum of three instructional contact hours per week must be provided for your child to be counted present.

Should you have any questions regarding HHB services, please communicate with the school's HHB contact.

Local education agencies (LEAs) are responsible for providing instructional services for students who are eligible for Hospital/Homebound (HHB) services and hospitalized in health care facilities. The LEA may provide the services directly or can arrange with or contract directly with the health care facility, the LEA in which the health care facility is located, or appropriately certified

teachers in the geographic area in which the health care facility is located. The state requirement is for HHB students to receive a minimum of 3 hours HHB instruction for each full missed week of school.

NOTE: Parents/guardians, emancipated minors, or students 18 years of age or older must complete the LEA HHB application forms before services can be provided by the LEA. A contract with the hospital to provide HHB services for a specific student must be in place before the LEA will reimburse the hospital for instructional services. For any further questions that cannot be answered by your child's school HHB contact, you may contact the county HHB coordinator in Student Services at (770) 266-4510.

Alternative Education Program

All alternative education classes for grades 6-12 will be offered at Loganville Middle School. Transportation will **not** be provided. Students should be dropped off at Loganville Middle School at 3:30 pm and should be picked up at 7:00 pm. A "time-served" practice will be followed for all students placed in alternative school through a hearing or waiver. The "time-served" practice allows parents to withdraw students from Walton County Public Schools for the duration of the alternative school placement and seek education in another setting such as private school or home school. At the end of the alternative school placement period, students may re-enroll in the Walton County Public School for which they are zoned.

Bullying

Bullying, as described in Georgia Law, is prohibited in all Walton County Schools. When a student suspects bullying, they are expected to report the incident to a school staff member immediately. School personnel are mandated to report an incident if they have reliable information that would lead a reasonable person to believe that bullying is occurring. Walton County Schools has developed progressive discipline procedures in order to respond to bullying.

Teacher Professional Qualifications

In compliance with the requirements of the Every Students Succeeds Act, parents may request information about the professional qualifications of their child's teacher(s) and/ or paraprofessional(s). The following information may be requested:

- Whether the student's teacher
 - has met State qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction;
 - is teaching under emergency or other provisional status through which State qualification or licensing criteria have been waived; and
 - is teaching in the field of discipline of the certification of the teacher.
- Whether the child is provided services by paraprofessionals and, if so, their qualifications.

If you wish to request information concerning your child's teachers' and/or paraprofessionals' qualifications, please contact the principal of your child's school or Shannon Hammond, Director of Federal Programs, at 770.266.4486.

WALTON COUNTY SCHOOL DISTRICT
Student Code of Conduct / Student Agenda Book 2020-2021

The Walton County Board of Education is committed to providing a safe, orderly and productive learning environment for all students. Student behavior is based on respect and consideration for the rights of others. Students are expected to conduct themselves at all times in a manner that will contribute to the school district's belief that schools must be places where students feel safe, supported, valued and respected. Students are expected to:

- **Participate fully in the learning process** – students should report to school and class on time, attend all regularly scheduled classes, remain in class until excused or dismissed, pay attention to instruction, complete assignments to the best of their ability, and ask for help when needed.
- **Avoid behavior that impairs their own or other student's educational achievement** – students should know and avoid the behaviors prohibited by the student code of conduct, take care of their books and other instructional materials and cooperate with others.
- **Show respect for the knowledge and authority of teachers, administrators, and other school personnel** – students must obey directions, use acceptable and courteous language, avoid being rude or disrespectful and follow school rules and procedures.
- **Recognize and respect the rights of others** – all students should show concern for and encouragement of the educational achievements and efforts of others.

Violations of the Student Code of Conduct are grouped into three levels (Level I, Level II, and Level III). Before determining the level of a violation, the principal or assigned administrator will review the facts and consult with individuals necessary to make this determination. Once the level of the violation has been determined, appropriate disciplinary procedures will be implemented.

For minor classroom disruptions, the teacher will take appropriate in-class disciplinary action and, where appropriate, will contact the student's parent(s) or guardian(s). If the student's behavior does not improve, or the disruption is severe, or when local Board of Education policy or state or federal law has been violated, a referral will be made to the principal or assigned administrator. Misbehavior on the bus may be treated in the same manner as misbehavior in the classroom or on school property. Riding the school bus is a privilege, not a right.

Administrators will follow a progressive discipline process whenever discipline is to be imposed including bus misbehavior. The degree of the discipline to be imposed for any violation, including the first time a student had committed a disciplinary infraction, will be in proportion to the severity of the violation. When considering the discipline to be imposed, administrators will take into account any and all relevant factors to assure that the appropriate degree of discipline is imposed. These factors include: the seriousness of offense, the student's prior disciplinary history as part of the permanent record, the degree of pre-meditation, impulse of self-defense, the student's age, and/or disability, and the student's attitude and willingness to cooperate, and other mitigating or aggravating circumstances. The principal or designee has the authority to place a student on an Administrative Probation Contract during a parent/guardian conference as a response to progressive discipline prior to taking the student to a disciplinary hearing. School administrators have discretion as to if and when a student is placed on the contract and what the terms of the contract will be. **Parents of Pre-K students are reminded that their children can be disciplined under the Code of Conduct.** Students who exhibit a pattern of violations of the Code of Conduct not resulting in a disciplinary hearing may be placed on administrative probation by a school level administrator as a means of correcting the student's behavior. In a meeting with the student and parent or guardian, the principal or principal's designee will establish the length and terms of administrative probation which shall be included in a contract signed by the student, parent or guardian and the administrator. Violation of any of the terms of Administrative Probation may result in a disciplinary action, including referral of the student to a disciplinary hearing under code of conduct rule 3.23.

Walton County School District's Student Code of Conduct extends to violations of the Student Code of Conduct which occur (1) on school property; (2) on a school bus or other transportation provided by the School District; (3) at the school bus stop and/or between the school bus stop and home; (4) off school property at a school-related activity or event; (5) while traveling under the supervision of school officials to or from a school-related activity or event; (6) off school property when the student leaves school (or other location where the student is under the supervision of school officials) and commits an act which violates the Student Code of Conduct; and (7) off campus at any time while the student is under the supervision of school officials. Students who engage in off-campus behavior unrelated to a school activity or event may still be subject to disciplinary action if: (1) the student's off-campus conduct could result in the student being charged with an offense which would be a felony if committed by an adult **and** the off-campus conduct either makes the student's continued presence at school a potential danger, or would disrupt the school environment; or (2) the student's off-campus expressive behavior (including, but not limited to, written communication; email; internet posting; social media; texting and/or other forms of communication) which consists of bullying, cyber bullying, threats or harassment) could reasonably be expected (a) to come to the attention of school officials **and** (b) to create a substantial risk to the safety of students, staff or others or create a substantial risk of disruption to the school, any program, or the school environment.

Also students with school parking permits are reminded that they can have their parking privileges revoked as a consequence of misbehavior. Certain offenses will be referred to the school district's Disciplinary Hearing Officer to determine whether the student should be expelled, suspended, or given the option to attend the alternative program. The violations for which referral to the school district's Disciplinary Hearing Officer will be made include offenses listed in Level II which are serious in nature (i.e., offenses resulting in a disciplinary recommendation for long-term suspension, expulsion, or given the option to attend the alternative program) and offenses listed in Level III. Parents will be given the option to waive their right to a student disciplinary hearing and accept the school's

recommendation for disciplinary action. Information will be shared in the school level administrative discipline conference concerning the waiver procedure.

Students are reminded that misbehavior at school can negatively affect academic performance. Students are also reminded of restrictions during disciplinary action. Students shall not be allowed to participate in nor attend any school sponsored activities including, but not limited to, school dances, athletics, and marching band and are restricted from attending any school events where Walton County students are guests during the period of time that they are being disciplined through an assignment for out-of-school suspension, alternative program or expulsion. Further, the student may not enter any Walton County School District building or onto property owned and/or operated by the Walton County School District. Additionally, students assigned to ISS - awaiting a disciplinary hearing may not attend programs, events, activities or games. Failure to comply with this restriction will result in the student being arrested for trespassing and could result in expulsion from Walton County School District. Also, returning RYDC students may be placed in the alternative program up to 20 days as a transitional strategy. A placement committee will convene for students coming from a residency assignment to review Walton County School District placement options.

As required by law, teachers and administrators will report to the principal or to his or her designee those students who have committed aggravated assault with a firearm, aggravated battery, sexual offenses, possession of a deadly weapon and commission of drug offenses. Such students will be reported to the superintendent, local police authority and the District Attorney as required by O.C.G.A. § 20-2-1184. (NOTE: Students in grades K-5 are subject to the Student Code of Conduct, and may be referred to the Disciplinary Hearing Officer where appropriate).

Discipline records are a part of a student's confidential educational records and are protected by FERPA guidelines.

CHAIN-OF-COMMAND

Constructive criticism of the schools is welcomed by the Board whenever it is motivated by a sincere desire to improve the quality of the educational program or to equip the schools to do their tasks more effectively. Members of the Walton County Board of Education have confidence in the professional staff and desire to support their actions in order that they are free from unnecessary, spiteful, or negative criticism and complaint. This policy does not supersede any employee's or citizen's right to contact Board members directly. However, whenever a complaint is made directly to the Board as a whole or to a Board member as an individual, it will be referred to the administration for study and possible solution. The Board advises the public that the proper channeling of and most effective way to resolve complaints involving instruction, discipline, transportation, or learning materials is as follows:

Discipline	Curriculum	Transportation
Teacher	Teacher	Appropriate Assistant Principal
Appropriate Assistant Principal	Counselor	Principal
Principal	Appropriate Assistant Principal	Transportation Director
Appropriate Director	Principal	Assistant Superintendent/Facilities
Assistant Superintendent/Facilities	Appropriate Director	Superintendent
Superintendent	Assistant Superintendent/Curriculum	School Board Member
School Board Member	Superintendent	State Department of Education
State Department of Education	School Board Member

Complaint/Grievance Procedure

The Board of Education encourages resolution of complaints informally in the spirit of collegiality where possible. However, when such efforts do not succeed the students/parents have the right to present and resolve complaints relating to certain matters affecting his/her educational access at the lowest organizational level possible.

Please refer to Policy GAE/GAE (2) that specifies the scope of the policy and procedure and outlines specific steps in the complaint process. The employee may obtain Complaint Procedure forms from the Human Resources Department or WCSD website.

(NOTE: Coach; Athletic Director; Principal)

The Board will consider hearing citizen complaints when they cannot be resolved by the administration. Matters referred to the Board must be in writing, must include address, contact phone numbers, signature of the complainant, and should be specific in terms of the action desired. After reading such complaints, and if more information which might challenge or question the good name or character of an individual is needed, the Board shall consider this in Executive Session. The Board will not consider or act on complaints that have not been explored at the appropriate administrative level or if the appropriate chain of command has not been attempted.

The corrective action plan shall be based on an analysis of the problems faced by the school and shall address the issues that resulted in the school being identified as persistently dangerous. Upon completion of its planned corrective action, the Associate Superintendent, or designee, may apply to the GDOE to have the school removed from the list of persistently dangerous schools.

Student Sexual Harassment Complaint Resolution Procedures

It is the policy of Walton County Public Schools to provide an environment that is free from sexual harassment for all members of the school system, including employees and students. Sexual harassment includes, but is not limited to, conduct or speech which entails unwelcome sexual advances, requests for sexual favors, taunts, threats, comments of a vulgar or demeaning nature, or demands which are intimidating or create a hostile environment for the victim. All complaints of sexual harassment should be promptly reported. Students found in violation of the county's sexual harassment policy (GAEB/JCAC) will be subject to appropriate forms of discipline as found in the Code of Conduct.

Complaint Resolution Procedures

An initial course of action for any person who feels he/she is being sexually harassed is for that person to tell or otherwise inform the harasser that the conduct is unwelcome and must stop. However, in some circumstances this course of action may not be feasible, or unsuccessful, or the individual may be uncomfortable dealing with the matter in this way. Walton County Public Schools provides both informal and formal complaint resolution procedures. Most complaints are handled informally, however informal procedures are optional, and complainants can choose to bypass them, discontinue them, or initiate a formal complaint while using them. The purpose of dealing with a complaint informally is to stop the offending behavior and to resolve the matter as expeditiously as possible. Complainants are encouraged to put their complaints in writing, although this is not required for informal or formal complaints. Students should be strongly encouraged to report known or suspected sexual harassment which they have observed or heard about.

A. Information, Counseling, and Informal Resolution

Anyone may seek advice, information or counseling on matters related to sexual harassment without having to lodge a formal complaint. Persons who feel they are being harassed, or are uncertain as to whether what they are experiencing is sexual harassment, are encouraged to talk with their school administrators or designees. Students may seek advice or information from the school counselors or social workers.

At this stage of the informal resolution process, the person seeking information and advice will be counseled as to the options for action available under this policy. To the extent possible, information disclosed through this advising process will be held in confidence unless and until the initiating individual agrees that additional people must be informed in order to facilitate a solution. The aim of informal complaint resolution is not to determine whether there was intent to harass but to ensure that the alleged offending behavior ceases and that the matter is resolved promptly at the lowest possible level. In attempting to resolve a complaint informally, the principal or designee receiving the harassment complaint may interview the alleged harasser, inform the alleged harasser of the complaint, question the alleged harasser about the alleged incidents, review Walton County Schools sexual harassment policy with the alleged harasser, and inform the alleged harasser that he or she must immediately stop any harassment that is ongoing or face swift disciplinary action. Written documentation will be kept of informal complaints as well as how the complaint was handled, but not in permanent files. This written documentation will be stored by the principal or designee involved in the complaint.

B. Formal Complaint Resolution

The filing of a written complaint is requested, although not required, for a matter to be formally investigated and a determination made as to whether this policy prohibiting sexual harassment has been violated. If the complainant is unable to provide a written complaint due to disability, age, or other viable reason, other alternative methods may be used such as tape recorders, scribes, or other options for those needing assistance. If the complaint is oral, the person receiving the complaint shall promptly prepare a written statement of the complaint and shall have the complainant read and sign the statement if it accurately reflects the complaint made. Complainants wishing to file a formal complaint are encouraged to file their complaints within 90 days following the alleged incident of sexual harassment with their principal or designee to enable school officials the opportunity to deal with the allegations promptly and equitably. Formal complaint resolution procedures include conducting a thorough investigation that results in a formal written report of the investigator's findings of facts, conclusions, and recommended action to resolve the complaint. In this type of procedure, not only are the parties of the complaint interviewed but witnesses and other third parties also are interviewed. The alleged harasser will be informed of the allegations, the identity of the complainant, and the facts surrounding the allegations. The alleged harasser will be given an opportunity to respond to the allegations and evidence provided by the complainant and/or alleged victim, and to provide a statement of the facts as perceived by the alleged harasser. All formal complaints of sexual harassment involving a student, whether the complainant or alleged harasser, should be given to the appropriate principal or designee, preferably in writing, who will forward the allegations to the Title IX coordinator for Walton County Schools. Once the Title IX coordinator is aware of the allegations, he/she will immediately inform Student Services of the complaint, and the investigation will be conducted jointly.

If for some reason the complainant is uncomfortable reporting the allegations to the principal or designee, the complainant may report their concerns directly to the Title IX coordinator. The Title IX coordinator and the investigative team will conduct all investigations together, interviewing all necessary parties, and a written report will be provided to the principal or designee stating whether or not there was a violation of this policy along with recommendations. Discipline for any substantiated allegations against students will be determined by the principal or designee according to the Code of Conduct. Parents of any students who are complainants or of any alleged harassers involving formal complaints will be informed of the allegations and the outcome of the investigation. It is the policy

of Walton County Board of Education that accurate and complete student academic and discipline records shall be maintained for each student enrolled in the Walton County Public Schools. Confidentiality of student records shall be preserved while access is provided to parents, eligible students (those over eighteen years of age or enrolled in postsecondary educational institutions), professional educators with legitimate educational interests, and those federal or state officials whose access is authorized in connection with an audit or evaluation of federal or state supported education programs or for the enforcement or compliance with federal legal requirements related to those programs. The superintendent shall direct the publication of procedures through which parents or eligible students may request the correction of errors in student records.

The superintendent shall ensure that every principal develop a means to notify, on an annual basis, students and parents, including non-English-speaking parents, of their rights under the Family Educational Rights and Privacy Act either by letter or through a student handbook distributed to each student in the school. Student records will be forwarded to schools within or outside the Walton County Public Schools upon request of the school where a student is enrolling.

Notice of Rights Under Family Educational Rights and Privacy Act (FERPA)

FERPA affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review, within 45 days of a request, the education records of a student who is your child, or in the case of a student who is eighteen (18) or older, your own education records. Parents or eligible students should submit to the Superintendent a written request identifying the record(s) they wish to inspect. The Superintendent or designee will make arrangements for access and provide notice of such arrangements.
2. The right to request the amendment of the student's education records to ensure that they are not inaccurate, misleading, or otherwise in violation of the student's privacy or other rights. To request the school district to amend a record, parents or eligible students should write the school principal, specify the part of the record they want changed, and specify why it is inaccurate, misleading, or otherwise in violation of the student's privacy or other rights. If the district decides not to amend the record, it will notify the parents or eligible students of the decision and inform them of their right to a hearing. Additional information regarding the hearing procedure will be provided with the notification of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to School officials with legitimate educational interests. A school official is a person employed by the district as an administrator, supervisor, instructor, or support staff member (including nurses and therapy providers); a member of the school board; a person or company to whom the district has outsourced certain services or functions for which the district would otherwise use an employee (such as an attorney, auditor, medical consultant, school resource officer, members of a threat assessment team, therapist or online educational service provider); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another School official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the Walton County School District discloses education records without consent to officials of another School District in which a student seeks or intends to enroll. Records will be sent upon request by any person or entity to whom disclosure may be made without consent.
4. The right to file a complaint with the U.S. Department of Education concerning any alleged failure by the Walton County School District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

**Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5901**

5. FERPA requires the school district, with certain exceptions, to obtain written consent prior to the disclosure of personally identifiable information from the student's education records. However, the district may disclose appropriate designated "directory information" without written consent, unless the parent or eligible student has advised the district to the contrary in accordance with district procedures. The primary purpose of directory information is to allow the school to include this type of information from the student's education records in certain school publications, such as the annual yearbook, graduation or sports activity programs, and honor roll or other recognition lists.

The School District has designated the following information as directory information:

- (a) Student's name, address and telephone number;
- (b) Date and place of birth;
- (c) Weight and height of students who are members of athletic teams;
- (d) Dates of enrollment;

- (e) Degrees, awards, and honors received;
- (f) Grade level;
- (g) Participation in officially recognized activities and sports;
- (h) Photograph

Unless you, as a parent/guardian or eligible student, request otherwise, this information may be disclosed to the public upon request. In addition, two federal laws require school systems receiving federal financial assistance to provide military recruiters, upon request, with students' names, addresses, and telephone numbers unless parents have advised the school system that they do not want their student's information disclosed without their prior written consent. You have the right to refuse to allow all or any part of the above information to be designated as directory information and to refuse to allow it to be disclosed to the public upon request without your prior written consent. If you wish to exercise this right, you must notify the principal of the school at which the student is enrolled in writing by August 15, 2018 or within ten (10) days of the receipt of this notice.

6. You are also notified that from time to time students may be photographed, videotaped, or interviewed by the news media at school or some school activity or event; unless you, as a parent/guardian object in writing to the principal to your student being photographed, videotaped or interviewed. You must notify the principal of your objection by the date specified above. The principal will take reasonable steps to control the media's access to students. However, your submission of a written objection does not constitute a guarantee that your student will not be interviewed in circumstances which are not within the knowledge or control of the principal.
7. You have the right to file with the United States Department of Education a complaint concerning alleged failures by the school district to comply with the requirements of FERPA or the regulations promulgated there under. The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202.
8. The Georgia Student Data Privacy, Accessibility, and Transparency Act affords parents and eligible students the right to file a complaint with the school district regarding a possible violation of rights under O.C.G.A. § 20-2-667 or under other federal or state student data privacy and security laws.
